ECE 447 Lab Assignment #<number>: <name> (<number> points)
Assigned <date>.

Due Dates:
1. A complete demonstration of the assignment and your code is due before 10:00 PM of your lab section <number> weeks after it is assigned. Zip all your code and submit it in Blackboard.

2. The lab report is due in Blackboard by 9:00 PM the following day.

3. This lab requires a hardware implementation. The IDE can be used to test your code during development. A simulation cannot be demonstrated in place of the hardware.

Objectives:
<Description of the concepts the student should have learned after completing the assignment.>

Assignment:
<Details what the student must do to complete the assignment.>

Bonus:
<Details the requirement for students to earn bonus points.>

Report Requirements:
<Description of the additional elements required in the report; and questions that the student must answer in the report.>
